**Backblaze B2 Reserve**

Capacity-based Storage

Easy, affordable object storage for active archiving, safeguarding systems, and doing much more.

Product Overview

Backblaze B2 Reserve provides always-hot, S3-compatible storage in a capacity-based bundle with one, two, or three-year increments available—for 100% budget predictability. The service is readily available through APIs, CLI, Web UI, and integrations with leading workflow software and hardware providers, including top compute and CDN solutions. Enterprises use the Backblaze B2 platform to easily host content, build and run applications, manage media, back up and archive data, and protect and recover from ransomware.

Easy to Use

- Get started in minutes.
- Connect via APIs, SDKs, and 1000s of integrations.
- 'Set-and-Forget' for many use cases.

Easy to Trust

- Proven to handle >500 billion files with >2 exabytes under management.
- 99.9% uptime SLA with no cold delays.
- Security friendly: 2FA, SSE, Object Lock for ransomware protection, and CORS.
- Compliance compatible: BAAs, HIPAA friendly, SSAE-18/SOC 2 data centers.

Easy to Budget

- Lock the capacity and duration you need at a fraction of the cost of AWS.
- Egress fees and more (see next page) are bundled in so you can use the service with no added cost concerns.
- No hidden fees, no minimum storage duration penalties.

> " Backblaze was a natural fit for us because it was more reliable and less expensive, enabling us to get ahead of where the business is going."
>
> — Dave Barney, CTO, Kanopy

Backblaze B2 Reserve

Bundle Components

- **Enterprise-grade, S3-compatible storage** in increments from 20TB, for time periods of 1, 2, or 3 years depending on your needs.

- **Egress and transaction call fees included** so there's no need to sweat data usage costs.

- **Universal Data Migration** support to freely move data in from public clouds, on-premises, and tape systems without impacting your network or distracting your team

- **Tera support** for upgraded service including a four business-hour response time SLA.

Priced from
$1,560/Yr
for 20TB capacity

Backblaze B2 Reserve is priced at a fraction of the cost of AWS, with **all costs included** so you can afford to store and use your data without fear of uncertainties or overages. The service is exclusively available from resellers.
